Polishing cloth with stiff support with a very high degree of planeness.

Satin woven natural silk with an adhesive backing / on a metal plate. Cream colour.

DP-Dur to be applied on a preparation disc. DP-Dur is self adhesive. MD-Dur for magnetic fixation on MD-Disc. Black screen printing on the rear.

Re-usable.

Polishing cloth for fine grinding and polishing of ferrous metals, non-ferrous metals, coatings and plastics. To be used with Struers diamond suspension with grain size 9 – 1 µm.

- Whilst the MD/DP-Dur is rotating, ensure hands are kept well clear of the edge and out of the splash bowl.

- Do not exceed a rotational speed of 600 rpm.

To the best of Struers’ knowledge, the products listed above do not contain any Substances of Very High Concern (SVHC) according to REACH regulations (amended on 20th June 2016) above 0.1%.

According to Article 3(3) of the REACH Regulation (EC) No 1907/2006, this product is considered an article and is defined as “an object which during production is given a special shape, surface or design which determines its function to a greater degree than its chemical composition”.

Therefore this product is exempted from CLP obligations and is outside the scope of the UN Globally Harmonized System of Classification and Labelling of Chemicals (GHS).

See Instructions for Use for more information.
### Skin protection
Wear protective gloves during polishing.

### Respiratory Protection
It is recommended that the polishing machine is adequately ventilated during use of MD/DP-Dur.

### Personal Protection
No requirements.

### Environmental precautions
Dispose of waste and residues as metal waste in accordance with local authority requirements.
