Revision 21-03-2017

Description
Polishing cloth for one step polishing. Synthetic nap.

Material
Medium sized, regenerated cellulose fibres with an adhesive backing / on a metal plate.

Properties
DP-Plus to be applied on a preparation disc. DP-Plus is self adhesive. MD-Plus for magnetic fixation on MD-Disc. Black screen printing on the rear.

Ability to hold large amounts of suspension and lubricants.
Re-usable.

Application
For one step polishing of sintered carbides and steels. To be used with Struers diamond suspension with grain size 3µm.

Health and Safety
- Whilst the MD/DP-Plus is rotating, ensure hands are kept well clear of the edge and out of the splash bowl.
- Do not exceed a rotational speed of 600 rpm.

To the best of Struers’ knowledge, the products listed above do not contain any Substances of Very High Concern (SVHC) according to REACH regulations (amended on 20th June 2016) above 0.1%.

According to Hazardous Products Act (HPA) Section 2 this product is considered a manufactured article and defined as “any article that is formed to a specific shape or design during manufacture, the intended use of which when in that form is dependent in whole or in part on its shape or design, and that, when being installed, if the intended use of the article requires it to be installed, and under normal conditions of use, will not release or otherwise cause an individual to be exposed to a hazardous product”.

Therefore this product is exempted from WHMIS 2015 obligations on classification and labelling under stated normal conditions of use (HPA Section 12, point (i)).

See Instructions for Use for more information.
### Skin protection
Wear protective gloves during polishing.

### Respiratory Protection
It is recommended that the polishing machine is adequately ventilated during use of MD/DP-Plus.

### Personal Protection
No requirements.

### Environmental precautions
Dispose of waste and residues as metal waste in accordance with local authority requirements.
