Revision: 21-03-2017

Description: Adapter for use with SiC Foil or self adhesive backed consumables on the MD-System, for easy removal.

Material: Tinned metal sheet with a high friction surface. A liner protects the surface when the MD-Gekko is not in use.

Properties: The adapter surface has adhesive properties in combination with smooth polymer or metal surfaces. For magnetic fixation on MD-Disc.

Application: Fixation of non-adhesive polymer or metal-backed as well as self-adhesive backed grinding/polishing consumables.

Health and Safety:
- Whilst the disc is rotating, keep hands well clear of the edge and out of the splash bowl.

To the best of Struers’ knowledge, the products listed above do not contain any Substances of Very High Concern (SVHC) according to REACH regulations (amended on 20th June 2016) at or above 0.1%.

According to Hazardous Products Act (HPA) Section 2 this product is considered a manufactured article and defined as “any article that is formed to a specific shape or design during manufacture, the intended use of which when in that form is dependent in whole or in part on its shape or design, and that, when being installed, if the intended use of the article requires it to be installed, and under normal conditions of use, will not release or otherwise cause an individual to be exposed to a hazardous product”.

Therefore this product is exempted from WHMIS 2015 obligations on classification and labelling under stated normal conditions of use (HPA Section 12, point (i)).

See Instructions for Use for more information.

Skin protection: Wear protective gloves during use.

Respiratory Protection: It is recommended that the grinding machine is adequately ventilated during use of.
Dispose of waste and residues as metal waste or landfill in accordance with local regulations.
