**Revision**

21-03-2017

**Description**

Adapter for use with SiC Foil or self adhesive backed consumables on the MD-System, for easy removal.

**Material**

Tinned metal sheet with a high friction surface. A liner protects the surface when the MD-Gekko is not in use.

**Properties**

The adapter surface has adhesive properties in combination with smooth polymer or metal surfaces. For magnetic fixation on MD-Disc.

Re-usable.

**Application**

Fixation of non-adhesive polymer or metal-backed as well as self-adhesive backed grinding/polishing consumables.

**Health and Safety**

- Whilst the disc is rotating, keep hands well clear of the edge and out of the splash bowl.

To the best of Struers’ knowledge, the products listed above do not contain any Substances of Very High Concern (SVHC) according to REACH regulations (amended on 20th June 2016) at or above 0.1%.

According to OSHA’s Hazard Communication Standard (HCS 2012) 29 CFR 1910.1200 paragraph (c) this product is considered an article and defined as “a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees”.

Therefore this product is exempted from HCS 2012 obligations on classification and labelling under stated normal conditions of use (29 CFR 1910.1200 (b)(6)(v)).

See Instructions for Use for more information.

**Skin protection**

Wear protective gloves during use.

**Respiratory Protection**

It is recommended that the grinding machine is adequately ventilated during use of.
Environmental precautions

Dispose of waste and residues as metal waste or landfill in accordance with local regulations.
