**Revision:** 21-03-2017

**Description:** Polishing cloth for polishing of all materials.

**Material:** Medium hard, porous neoprene with an adhesive backing / on a metal plate.

**Properties:** OP-Chem to be applied on a preparation disc. OP-Chem is self adhesive. MD-Chem for magnetic fixation on MD-Disc. Black screen printing on the rear.

Chem cloth has a high degree of chemical resistance and can carry large amounts of liquid.

Re-usable.

**Application:** Final polishing of all materials. Ideally used for oxide polishing with chemically aggressive oxide media like alkaline colloidal silica and acidic alumina suspensions. Apply extra amount of lubricant to the cloth before using for the first time. To be used with Struers oxide polishing suspensions with grain size < 1 µm.

**Health and Safety:**
- Whilst the MD/OP-Chem is rotating, ensure hands are kept well clear of the edge and out of the splash bowl.
- Do not exceed a rotational speed of 600 rpm.

To the best of Struers’ knowledge, the products listed above do not contain any Substances of Very High Concern (SVHC) according to REACH regulations (amended on 20th June 2016) above 0.1%.

According to OSHA's Hazard Communication Standard (HCS 2012) 29 CFR 1910.1200 paragraph (c) this product is considered an article and defined as “a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees.”
Therefore this product is exempted from HCS 2012 obligations on classification and labelling under stated normal conditions of use (29 CFR 1910.1200 (b)(6)(v)).

See Instructions for Use for more information.

**Skin protection**

Wear protective gloves during polishing.

**Respiratory Protection**

It is recommended that the polishing machine is adequately ventilated during use of MD/OP-Chem.

**Environmental precautions**

Dispose of waste and residues as metal waste in accordance with local authority requirements.
