Exposure controls

**Engineering measures:** Provide adequate ventilation. Local exhaust is recommended. An eye wash bottle must be available at the work site.

**Personal protection:** Personal protection equipment should be chosen according to relevant AS/NZS standards and in discussion with the supplier of the personal protective equipment.

**Respiratory equipment:** In case of inadequate ventilation and work of brief duration, use suitable respiratory equipment. It is recommended to use respiratory equipment with combination filter, type ABEK.

**Hand protection:** Wear protective gloves. Butyl rubber gloves are recommended. The most suitable glove must be chosen in consultation with the gloves supplier, who can inform about the breakthrough time of the glove material.

**Eye protection:** Wear goggles/face shield.

**Skin protection:** Wear apron or protective clothing in case of contact.

**Hygiene measures:** Wash contaminated clothing before reuse.

**Environmental Exposure Controls:** Not available.
