Extinguishing media:
Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Cool containers exposed to heat with water spray and remove container, if no risk is involved.

Unsuitable extinguishing media: Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture

Specific hazards:
The product is flammable, and heating may generate vapours which may form explosive vapour/air mixtures. Vapours are heavier than air and may travel along the floor and in the bottom of containers. Vapours may be ignited by a spark, a hot surface or an ember.

Emergency procedures:
No specific recommendations. For personal protection, see section 8. (*)

6.2. Environmental precautions

Environmental precautions:
Do not discharge into drains, water courses or onto the ground.

6.3. Methods and material for containment and cleaning up

Methods for cleaning up:
Large quantities of concentrate should not be discharged into the drain but removed with absorbing material. Absorb spillage with non-combustible, absorbent material.
