Revision 21-03-2017

Description Polishing cloth for one step polishing. Synthetic nap.

Material Medium sized, regenerated cellulose fibres with an adhesive backing / on a metal plate.

Properties DP-Plus to be applied on a preparation disc. DP-Plus is self adhesive. MD-Plus for magnetic fixation on MD-Disc. Black screen printing on the rear.

Ability to hold large amounts of suspension and lubricants.

Re-usable.

Application For one step polishing of sintered carbides and steels. To be used with Struers diamond suspension with grain size 3µm.

Health and Safety

- Whilst the MD/DP-Plus is rotating, ensure hands are kept well clear of the edge and out of the splash bowl.
- Do not exceed a rotational speed of 600 rpm.

To the best of Struers' knowledge, the products listed above do not contain any Substances of Very High Concern (SVHC) according to REACH regulations (amended on 20th June 2016) above 0.1%.

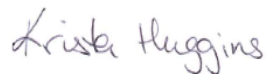

According to Article 3(3) of the REACH Regulation (EC) No 1907/2006, this product is considered an article and is defined as *"an object which during production is given a special shape, surface or design which determines its function to a greater degree than its chemical composition"*.

Therefore this product is exempted from CLP obligations and is outside the scope of the UN Globally Harmonized System of Classification and Labelling of Chemicals (GHS).

See Instructions for Use for more information.
