**Product Name**                      **Transcopy Replica Foil**

**Cat. no.**                              40900091      Transcopy Replica Foils

**Revision**                              21-03-2017

---

**Description**                              Reflective metallographic replica foils.

**Material**                                      Top film of cellulose acetate metalized with aluminium.

**Properties**                                      Adhesive layer glued to white plastic lining. Self-adhesive.

**Application**                                  Replication of metal samples. Best used with Transcopy liquid (40900092) from Transcopy Kit.

**Health and Safety**                      To the best of Struers' knowledge, the products listed above do not contain any Substances of Very High Concern (SVHC) according to REACH regulations (amended on 20th June 2016) at or above 0.1%.

According to OSHA's Hazard Communication Standard (HCS 2012) 29 CFR 1910.1200 paragraph (c) this product is considered an article and defined as *"a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees"*.

Therefore this product is exempted from HCS 2012 obligations on classification and labelling under stated normal conditions of use (29 CFR 1910.1200 (b)(6)(v)).

**Respiratory Protection**              Not required.

**Environmental precautions**              Dispose of waste and residues as metal waste in accordance with local authority requirements.
